
UNHCR RESPONSE TO PAKISTAN EARTHQUAKE

23 December 2005

UNHCR role

Under the joint UN response to the earthquake, UNHCR is the lead agency for camp management. We are supporting the Pakistan government in the running of camps, by providing material and technical assistance and coordinating the delivery of basic services like health care, water, sanitation and education.

On 28 November 2005, the Government of Pakistan adopted a Camp Management Strategy prepared and endorsed by the camp management cluster. It is now being operationalised in the field hubs.

Current priorities

Winterisation: Keeping people warm in camps. Personal insulation with 3 blankets per person, 4 mattresses and 2 plastic sheets for each tent – to insulate roof and ground.

Fire safety: Minimising risk of tent fires by exploring safe heating options and educating camp residents on fire safety, prevention and response. Information, fire extinguishers and pails filled with sand to be provided to camps.

Contingency planning: For possible mass movements from the mountains/valleys as winter starts. UNHCR is working closely with the Pakistan military/civil authorities and the international community to

expand existing camps and to build new camps to accommodate an additional 50,000 people.

Presence in affected areas

107 emergency staff (43 international + 64 national) in Islamabad and four hubs: Mansehra (covers Abbotabad, Haripur, Balakot), Batagram (covers Shangla), Muzaffarabad and Bagh.

Number of camps

UNHCR is currently supporting the local authorities and NGOs in 37 planned camps with 57,742 people in NWFP and AJK. It has counted another 335 spontaneous/self-settled camps. In all, there are 184,460 people living in camps in the affected areas. These figures change daily due to fluid population movements.

What's been distributed so far

19,439 tents, 431,184 blankets, 60,413 plastic sheets, 1,531 plastic rolls, 15,886 mattresses, 24,908 jerry cans, 20,008 kitchen sets, 1,359 sleeping bags and 31,628 bars of soap.

What we need

US\$30 million to assist 250,000 people. So far we've received \$29.8 million in pledges.
